# D&D GARRETT Millwork

# D&D GARRETT Millwork

D&D Garrett Millwork has been providing high quality wood products for 25 years. Our equipment has allowed us to evolve into a full line millwork provider of hardwood flooring, siding, moulding and related products.

We have a commitment to continuous quality improvement in our work. Our products are produced in-house on our growing line of state of the art equipment, including a Leadermac 6 Head Moulder, Cantek 2-Sided Planer and Cantek Gang Rip Saw. We also have a profile grinder, which allows us to sharpen our own knives, and we can also make custom knives to match existing moulding and siding designs for our customers. Our spacious production facility is located near Parham in Eastern Ontario.

Our business has grown through word of mouth advertising because of our commitment to producing high quality products at reasonable prices. We work for contractors, wood workers, architects, and home and cottage owners.

We know wood. We know quality. We produce the highest quality product available anywhere and we would be happy to provide a quote on your next project.

Drawings in this catalog are provided for reference only and may not print size as. If exact measurements are required please request our dimension specific sheets. While the items in this catalog approximate their actual size, please note that should you print this catalog from the electronic PDF file, some distortion will occur on your printer and the size of the piece will not be exact.

# Wood Selection

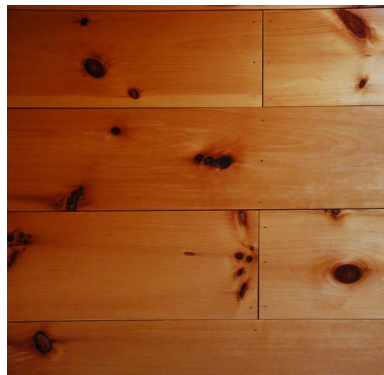

Our products are available in all commonly used woods including Pine, Oak, Ash, Poplar, Cherry, Maple or any other popular wood you might want to use in your home. We also offer exotic woods. The wood we purchase has been properly kiln-dried.

Because wood is a natural product it is susceptible to imperfections that Mother Nature creates. We take every precaution to ensure that every piece of finished product that leaves our workshop meets a high level of quality. We inspect the virgin wood before it is processed, and then we inspect the finished moulding.

D&D Garrett Millwork is an owner-operated business and our name and reputation is on every piece of wood that leaves our workshop. We won't sell any product unless we'd use it in our own home.

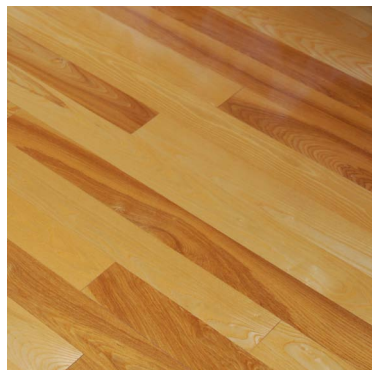

**Sugar Maple**

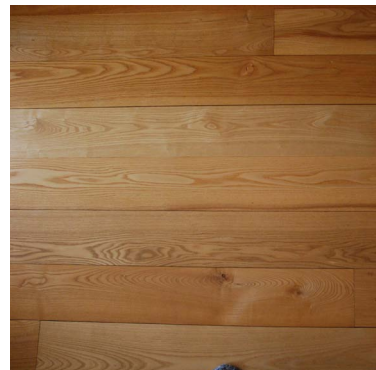

**Knotty Pine**

**Cherry**

**White Ash**

**Brown Ash**
